Detailed Action

The amendment and supplemental response filed September 17, 2002, have been acknowledged and entered as paper number 3.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action (paper number 2).

35 U.S.C. § 112

1st and 2nd Paragraphs

The rejection of claim 1 under 35 U.S.C. 112, first and second paragraphs, is withdrawn in view of Applicant's amendment.

Claim Rejections- 35 U.S.C. 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless-

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Plant Breeder's Right grant no. 4711 (European Community) in view of Applicant's admission that 'Avalanche' was sold in the United Kingdom the fall of 1998 (page 3 of reply filed September 17, 2002).

The grant was published on August 15, 1999, more than one year prior to filing of instant application. The grant is a "printed publication" under 35 U.S.C. 102 because it is accessible to persons concerned with the art to which the document relates. See *In re Wyer*, 655 F.2d 221, 226, 210 USPQ 790, 794 (CCPA 1981). See MPEP § 2128. The Federal Office of Plant Varieties publishes applications for variety protection. Once the Breeder's Grant is made, the variety and description are entered in the Plant Variety Protection Register. The register, grant and published applications are accessible to the public.

Thus information regarding the claimed variety, in the form of the publication noted above, was readily available to interested persons of ordinary skill in the art. A publication relied upon as prior art under 35 USC 102(b) must be enabling. The text of the relied upon publications standing alone would

Art Unit: 1661

not enable one skilled in the art to practice the claimed invention. However, when the claimed subject matter is disclosed identically by a reference, an additional reference may be relied on to show that the primary reference has an "enabled disclosure." *In re Samour*, 571 F.2d 559, 197 USPQ 1 (CCPA 1978) and *In re Donohue*, 766 F.2d 531, 226 USPQ 619 (Fed. Cir. 1985). See also MPEP § 2131.01. When the claim is drawn to a plant, the reference, combined with knowledge in the prior art, must enable one of ordinary skill in the art to reproduce the plant. *In re LeGrice*, 301 F.2d 929, 133 USPQ 365 (CCPA 1962). If one skilled in the art could reproduce the plant from a publicly available source, then a publication describing the plant would have an enabling disclosure. See *Ex parte Thomson*, 24 USPQ2d 1618, 1620 (Bd. Pat. App. & Inter. 1992) ("The issue is not whether the [claimed] cultivar Siokra was on public use or sale in the United States but, rather, whether Siokra seeds were available to a skilled artisan anywhere in the world such that he/she could attain them and make/reproduce the 'Siokra' cultivar disclosed in the cited publications."). See also MPEP § 2121.03.

Applicant admits on page 3 of the response filed September 17, 2002 that the cultivar Avalanche was sold in the United Kingdom as early as the fall of 1998. This constitutes evidence that the claimed cultivar was available to the public more than one year before the present application's U.S. filing date. The publication is enabled because the disclosed cultivar could have been propagated from publicly available materials, and one skilled in the art would have the knowledge of how to do so, given the notoriety of various methods of asexual propagation. See, e.g., *Thomson, supra*.

Claim 1 is rejected under 35 U.S.C. 102(b), for the reason stated in the previous Office action (paper no. 2).

Conclusion

No claim is allowed.
